To the Citizens of Belknap County.

Agreeably to the laws of the State of New Hampshire, the Commissioners of Belknap County again submit their annual report and a statement of the expenditures over which they have control, together with the reports of the Superintendent of the County Farm, Treasurer, Clerk of the Court, Solicitor, Jailor, Sheriff, Physician and Auditors.

The expenses at the Farm have been larger than in any previous year, in consequence of the larger number of persons supported and the permanent improvements that have been made. The whole number of different persons aided during the year was ninety-eight. There were also seventy-two persons committed to the house of correction. The women have found employment in the house, while the men have been under the charge of Mr. Howard Gilman, and have been worked on the farm in the summer and in the woods in the winter.

The sanitary condition of the almshouse has been good. Dr. Wells, the County Physician, has been unremitting in his care of those who have needed his services. We have to report the resignation of the Superintendent and Matron of our County almshouse for the past four years, Mr. and Mrs. Oscar D. Brown. The position has not been an enviable one, the duties having been trying and arduous, but during their administration they have labored willingly and earnestly for the greatest good of the unfortunate persons placed under their care. The expense of the County paupers not at the Farm is less than last year, except in the city of Laconia, where, on

account of the shut-down of the mills last winter, caused by the general depression of business, a large number were necessarily thrown out of employment that had to be helped by the County. The court expenses also have been increased the past year by more than \$1,000. We wish to call the attention of the citizens, and especially the County delegation, to the consideration of our jail. A little more than a year ago three of the prisoners succeeded in removing enough bricks from the walls to make their escape. The construction is such that it is impossible for the Commissioners to make it safe without practically rebuilding the same. Since our last report we have fully completed the new courthouse, and the cost of the same did not exceed the appropriation. No money was raised by taxation for the construction of the building, the expense being met by the issue of bonds, as authorized by the County Convention. By a vote of the County Convention of Feb. 7, 1893, the County Commissioners were authorized to bond the County debt to the amount of \$20,000, but on account of the state of the market the bonds were not sold until the past year, when they were disposed of at a premium of \$612. The amount received from the sale of the bonds has been used in taking up five per cent notes, so that now the entire debt of the County is bearing interest at the rate of four per cent, instead of five. It will be seen by the Treasurer's report that we have kept within the appropriation for the year by \$1,450, which we think is a good showing for the county, when we take into consideration the hard winter of 1893 and 1894 and the extra interest on the cost of the courthouse, and the expense of heating, lighting and caring for the same, for which there was no appropriation.

County Physician's Report.

To the Hon. Board of Commissioners of Belknap County :

It is a pleasure to state the fact that the County Farm inmates are in a healthy and happy condition, due no doubt to the good management and sanitary conditions of the place.

There have been two deaths :

Silas Hadley aged 93

Valerius Powell " —

These were of old age. The inmates are well provided for and have nothing to complain of, thanks to the good government.

Respectfully yours,

HENRY C. WELLS.

Sheriff's Report.

Our jail is not what it should be and its condition ought to be remedied at once.

It is not to the credit of the county that the walls of this institution, made with an object to safely keep those committed to it, offer no more resistance to the efforts to escape, should those confined there be inclined to make it, than the walls of an ordinary dwelling house, those of wooden construction not excepted. Some of the cells are useless on this account.

This matter ought to be fully understood, a thorough investigation made and the defects corrected.

We also need bedsteads of different construction, that cannot be taken apart and used either as a weapon for assault on a tool for escape.

The court expenses as examined and approved by the Commissioners for the year, are as follows :
